**120 x 60 x 74 with traverse of multiplex in table colour inside**

**120 x 60 x 74 traverse of steel**

**90 x 45 x 74 with traverse of multiplex in table colour inside**

**90 x 45 x 74 traverse of steel**

**linoleum**

**the linoleum manufacturer informs**

as furniture linoleum is made from natural raw materials different production runs may show slight colour variations. this is something to bear in mind when repeating an order.

during the last phase of the production process, a yellowish tint - known as drying room yellowing - may form on furniture linoleum, especially on lighter shades. this is entirely normal and disappears soon after exposing the product to natural light.

**display of colours**

can differ from the original tone, depending on printer settings or scope presentation.

**caoutchouc**

---

---

**the caoutchouc manufacturer informs**

variations in colours due to production and technological changes, which serve the approval of the products, we do reserve.
